Access controls worksheet

	Note(s)	Issue(s)	Recommendation(s)
Authorization /authentication	**Objective:** List 1-2 pieces of information that can help identify the threat: **Based on this event, it is most likely from an insider threat. It occured at 8.29.57AM on 10/03/2023. Device it used was Computer Up2-NoGud**	**Objective:** Based on your notes, list 1-2 authorization issues: **One issue from account exercise after the employee directory is that Robert Taylor Jr. has the same IP address as the event where he tried gaining access four years after he left the company, in 2023, but he left in 2019, as contractor.** **Therefore he should not have user access, and implement the principle of least privilege, and separation of duties, meaning the employee should have no access whatsoever once he left the company.**	**Objective:** Make at least 1 recommendation that could prevent this kind of incident: **Always implement MFA to ensure no one has access to company who has either resigned or terminated from company, and always consider separation of duties, and least privilege, to make sure unwanted staff who are not authorized have no access to company system or database.**
