Parking lot USB exercise

Contents	Write **2-3 sentences** about the types of information found on this device. **There are personal files that are associated with PII and need to have privacy. There are several work related files like employee shifts, another folder for new hire employees that are also sensitive information. Therefore, it is not safe to mix personal files on families and work files with a list of new hires, employees and employee shifts together.**
Attacker mindset	Write **2-3 sentences** about how this information could be used against Jorge or the hospital. • *Could the information be used against other employees?* • *Could the information be used against relatives?* • *Could the information provide access to the business?* **By stealing Jorge PII information, the hacker could offer ransomware for Jorge to spill remaining sensitive information to threaten him with spilling all PII information in social media, or they could intrude into public websites and alter data inside. Yes, this information is related to business and has access to business.**
Risk analysis	Write **3 or 4 sentences** describing technical, operational, or managerial controls that could mitigate these types of attacks: • *What types of malicious software could be hidden on these devices? What could have happened if the device were infected and discovered by another employee?* • *What sensitive information could a threat actor find on a device like this?* • *How might that information be used against an individual or an organization?* **Based on this, both technical and operational control helps with this problem because these issues need to be resolved by preventing data theft, malware infection, etc. If devices were infected, then all data could be corrupted or non functional, or data being transferred to unknown threat actors, etc. They mostly focus on PII personal Identifiable**

	Information, like customer or employee home address, age, state, date joined, etc. Blackmailing is one of the most dangerous ways to use these PII against employees.
